

# Introducing The Clean Clip™

Your personal,  
automated  
sanitizer  
dispenser.

\*when enrolled  
in our autoship program.

- Durable with attachment options.
- Logo, branding, and colour options.
- Recyclable Cartridge.
- Autoship program & Lifetime warranty.

# Background

In response to market demand our company SanitizeFirst Global Solutions (SFGS) designed and developed the modern solution to hand sanitization; a sleek, durable, and indispensable patent-pending sanitization device. Conveniently worn on clothing or accessories, the Clean Clip™ provides the on-demand sanitizer necessary for the new normal in social interactions and hygiene protocols. It mitigates cross-contamination anytime and anywhere offering you protection, peace of mind, and wellbeing.

## Robust & Reliable Design

Built tough to withstand daily use, the dispenser is impact-, dust-, and water-resistant for maximum durability.

## Health Canada Approved

Uses pre-filled sanitizer cartridges approved by Health Canada, ensuring safety and compliance. NPN 80134238

## Smart Battery Power

Equipped with a USB-C rechargeable LIPO battery, offering hundreds of doses between charges.

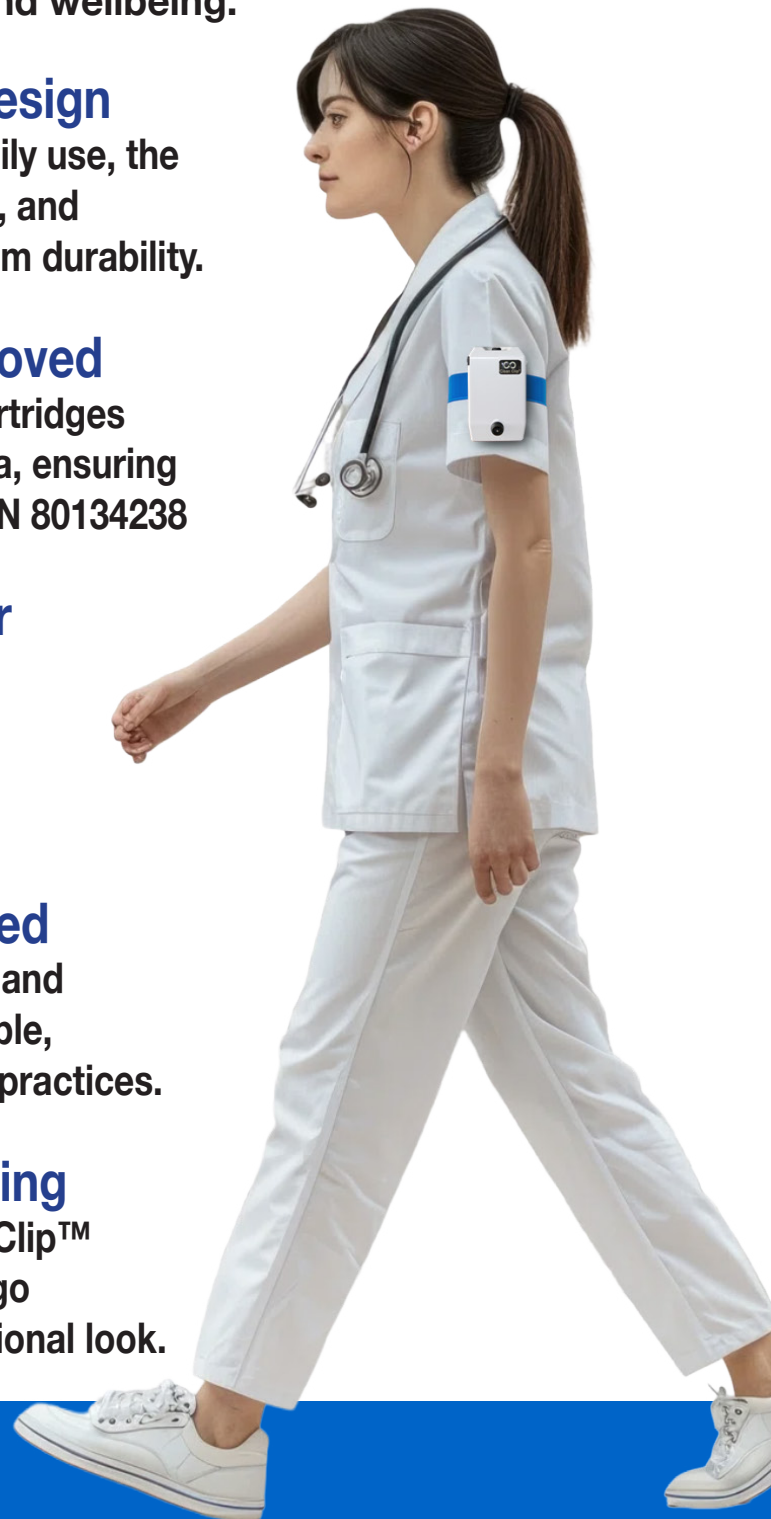

## Sustainability Focused

Both the Clean Clip device and cartridges are fully recyclable, supporting eco-conscious practices.

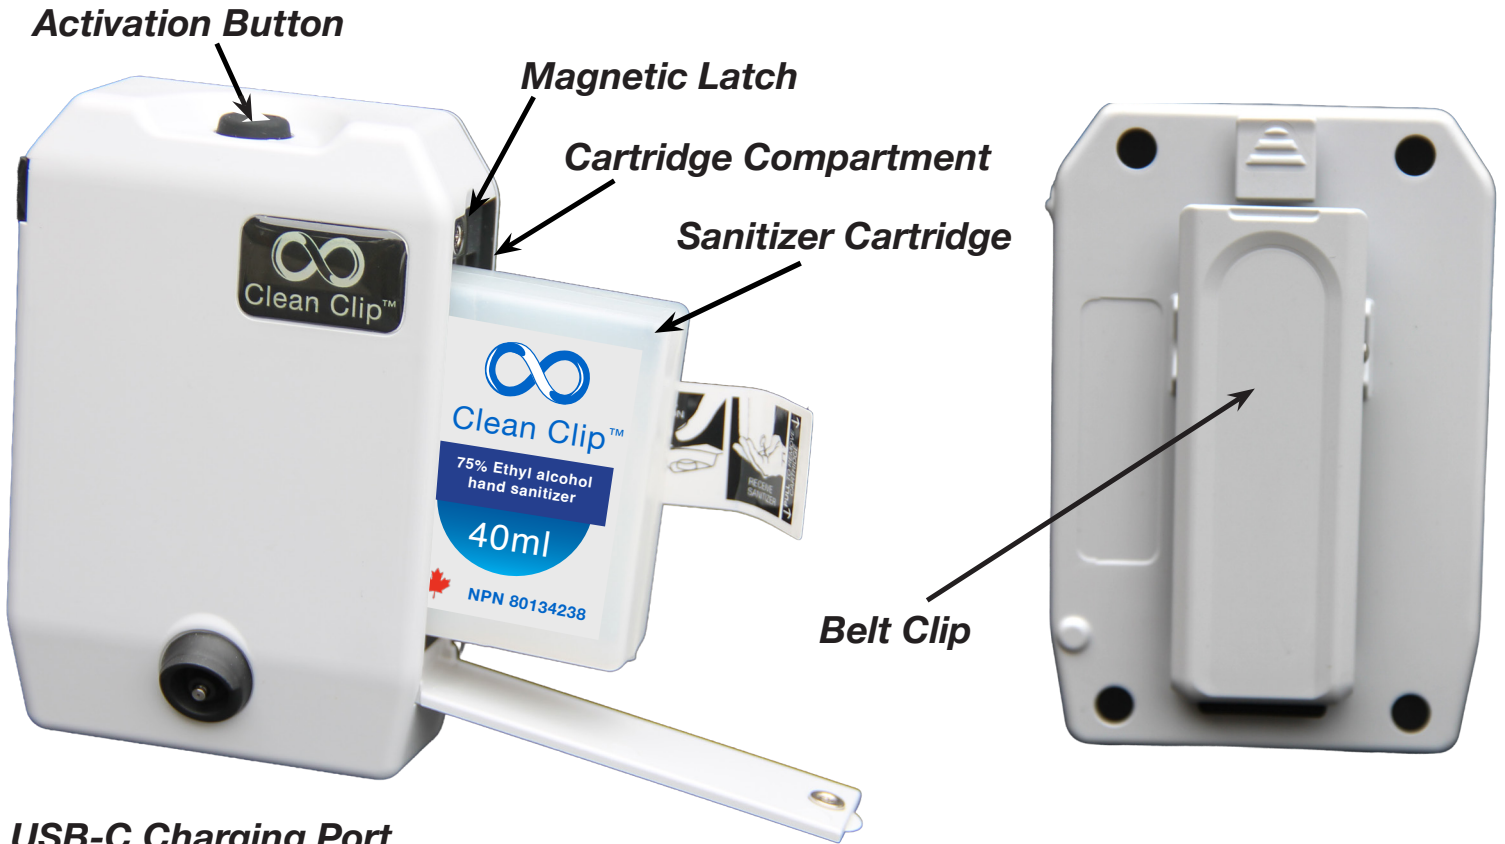

## Customizable Branding

Option to brand the Clean Clip™ with your organization's logo for a personalized, professional look.

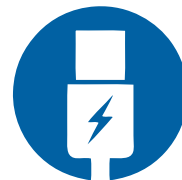

# Key Features & Benefits

*Instant, On-the-Go Sanitization Clean Clip™ enables effortless hand sanitizing anytime, anywhere—perfect for busy, fast-paced environments.*

\*when enrolled in our auto-ship program.

USB CHARGING (MICRO C)      DUST RESISTANT

IMPACT RESISTANT      WATER RESISTANT

# Secure valuable data

Each time you use the Clean Clip™ the sanitization event time and date are recorded on the device. This valuable data can be securely hardwire downloaded to our CleanHub™ via USB.

The sanitization event data is stored in a spreadsheet and can be cross-referenced against schedules, outbreaks, and can provide full insight into each devices usage. The data is secure, valuable, and yours.
